

12 Woodville Park Drive HOPPERS CROSSING VIC

4 2 2

This stunning example of fine building and family living seems to offer the complete package when it comes to build quality and care, location and certainly features. Comprising four huge bedrooms, with master featuring semi-ensuite and walk in robes, the updated central Tasmanian oak solid kitchen also features upmarket appliances and adjoins a meals and second family room. The formal lounge and dining are equally impressive in size while ducted heating and split system cooling keep things cosy all year round. An oversized double garage features both automated and internal access. Outdoors has been finished with select paving while the yard also offers hand unrestricted side access for the boat or caravan. Located close to Werribee Plaza shopping centre, Hoppers crossing train station, simple freeway access and an array of schools, kindergartens and parklands the location alone makes this home especially desirable. Built in the days
