5 2 2

This is definitely one of those opportunities that don't come up often and this astounding occasion is just that as it is first time offered also. Built in an era when things were meant to last, the attention to detail and care taken constructing this home is impeccable. Comprising multiple living zones entailing a large formal lounge and dining room, large meals room, 2nd family room, and even a huge separate rumpus or games room the family has all the room that could be desired. Featuring five great sized bedrooms with the master entailing ensuite, a central bathroom also services the home. Suspended slab construction integrates hydronic floor heating while a combination of split system cooling and weather walls situated throughout help keep the elements to your desire. Cedar and face brick highlights further detail the finishes employed. Outdoors, the oversized double garage with adjoining workshop is great for both the cars and
